Competition and market structures - Economics Online

Market structures are distinguished mainly by the level of competition that exists between the firms operating in the market. Competitive structure vs competitive behaviour As well as considering market structures, modern theory also looks at the behaviour, or conduct of firms, their performance, and the level of contestability in the market.

H-bridge motor driver IC has 50V / 3.0A current output limit

The single-bridge mode supports a single channel current up to 6.0A and a dual-bridge mode allows the use of two motors with a single IC driving up to 3.0A per motor. The low on-resistance MOSFETs incorporated into the H-bridge (High side + Low side =0.49 typ.) ensure low losses and efficient operation.
