[Language Planning and Policy - CAL](#)

Decisions around language policy and planning are made around the globe every day, both formally by governments and informally by scholars and community leaders. These decisions influence the right to use and maintain languages, affect language status, and determine which languages are nurtured.

[Language Policy and Planning](#), ERIC Digest.

Language policy and planning decisions arise in response to sociopolitical needs. Language planning decisions may be required, for example, where a number of linguistic groups compete for access to the mechanisms of day-to-day life, or where a particular linguistic minority is denied access to such mechanisms.

Language policy and planning is rarely just about language; it always has social, political and economic dimensions. This revised second edition is a comprehensive overview of why we speak the languages that we do. It covers language learning imposed by political and economic agendas as well as language choices entered into willingly for reasons of social mobility, economic advantage and group

[What is a language policy and planning? - Quora](#)

This language policy has led to the removal of some languages from the public life and some of these not chosen by state languages are subjected to disappear. There is a natural conflict between assimilationist language policies and language rights. Language rights have emerged as a struggle for existence and a demand for right against fundamental injustices of

#### LANGUAGE PLANNING: THEORY AND PRACTICE

language policy , and language politics . In the French literature, we find terms such as am-nigement linguistique, gestion linguistique, planification linguistique, politique linguistique. In English, less conscious instances of language planning are sometimes designated as language treatment . The language problems evoked in the above quotation could include such
